## **RCS Adds Highly-Credentialed Consultant to Workforce**

**Houston, TX**—RCS announced today the addition of a new staff member, David McIntosh. David will perform the duties of a Senior Loss Control & Safety Consultant. Those duties include performing Best Practices Assessments at client facilities, providing expert training services, consulting with clients on safety and risk management issues, providing onsite safety services to both staffing and general industry, as well as other general consulting responsibilities.

Mr. McIntosh's safety experience began during his service in the United States Air Force. After leaving the military, he attended Texas State Technical College and graduated with a 4.0 GPA and a degree in Occupational Health and Safety. He is certified to train in OSHA, MSHA, DOT, First Aid/CPR, and other safety and health courses.

Mr. McIntosh has over fifteen years of experience in a wide variety of industries including maritime, construction, transportation, insurance, staffing, and more. He holds several certifications including the Certified Safety Professional (CSP), Associate in Risk Management (ARM), and Occupational Health and Safety Technologist (OHST) designations. He is based out of the corporate office in Houston.

### **About RCS**

Based in Houston, Texas, RCS is the fourth largest independent risk management consulting firm in the U.S. Since 1990, the company has provided risk management training and consulting to over 800 staffing firms.
